SMALL PRODUCTION HT ROPE DYEING MACHINE

MCS mette a frutto i 50 anni di esperienza che l'hanno resa leader internazionale del settore meccano - tessile con la macchina di tintura in corda per piccole produzioni: **KAPPA** e **SAMPLE**.

La nostra ricerca continua in ambito tintoriale combinata a soluzioni ingegneristiche innovative ci ha permesso di sviluppare un prodotto ad alta efficienza energetica e che ottimizza i processi di tintura.

Oltre a garantire alte performance ed affidabilità, riproduce perfettamente le condizioni di processo riscontrabili nelle macchine di grande produzione.

Kappa e Sample sono interamente ingegnerizzata e costruita in MCS.

Ogni nuovo modello viene testato ed esposto, in INNOVATIVE BLUE AREA integrato nella tintoria del gruppo MCS.

MCS take advantage of 50 years' experience, which made the company a leader in textile machine manufacturing, and realise a rope dyeing machine for small production: **KAPPA** and **SAMPLE**.

Our research in dyeing continues and develops a combined solution meeting design innovations which brought to a high efficiency machine as far as consumptions are concerned.

Apart from being guarantee of performance and reliability, it perfectly reproduces the processing conditions of a big-size production machines.

Kappa and Sample are entirely engineered and built in MCS.
Each new model is tested and exhibited, in INNOVATIVE BLUE AREA integrated in the MCS Group dyeing plant.
