

MCS

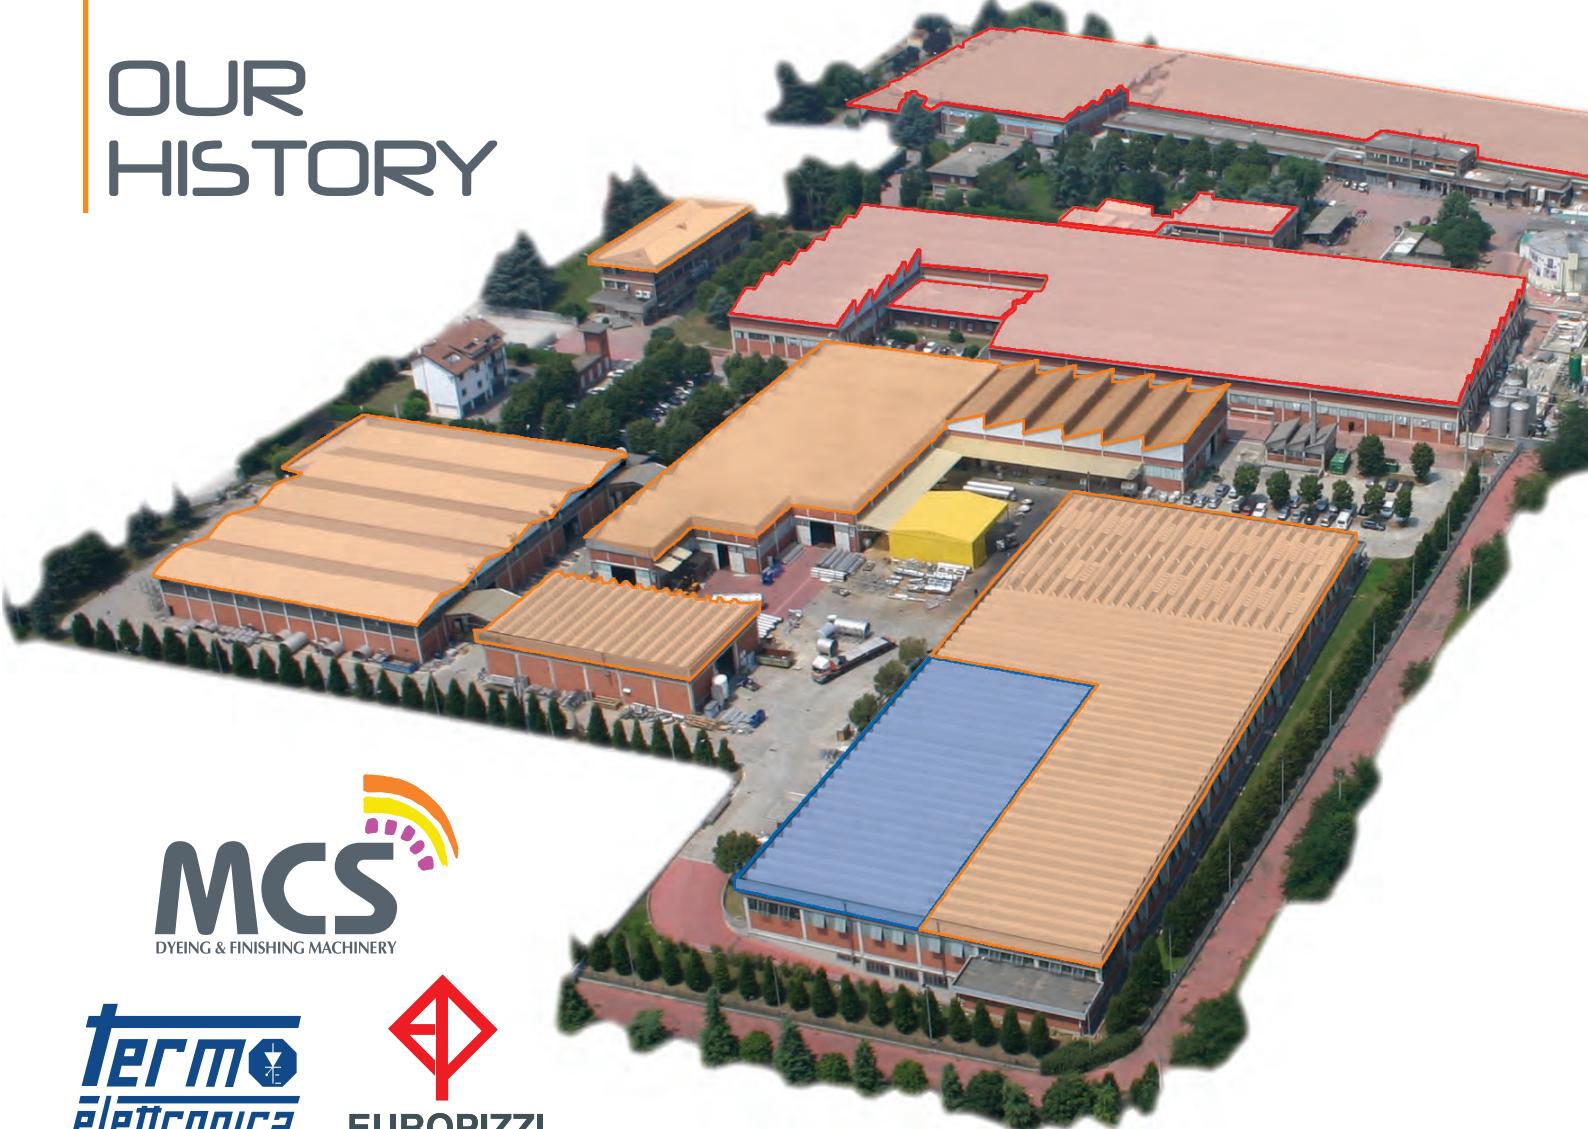

DYEING & FINISHING MACHINERY

Your ideal partner since 1963,
which means reliability, research and innovation.

SOFTFLOW 99
HORIZONTAL LT ROPE DYEING MACHINE

OUR HISTORY

1963

Luigi Chiappini, Angelo Cagnazzo e Roberto Sopergno fundan MCS SpA. Luigi Chiappini será el presidente.

Luigi Chiappini, Angelo Cagnazzo e Roberto Sopergno founding MCS. Luigi Chiappini is the Chairman of the Board.

1964

MCS inicia sus actividades con la fabricación de accesorios para máquinas de tintura.

MCS begins its activity with the production of accessories for dyeing machines.

1967

MCS produce la prima máquina de cuerda con temperatura baja.

MCS manufactures the first low temperature rope dyeing machine.

1968

Inicio de las actividades de **Europizzi** tintorería y estampería productora de productos auxiliares del grupo MCS. *Europizzi begins its activity, dyeing, printing, producer of auxiliary products within MCS group.*

1971 ITMA - París

MCS expone el primer modelo de chorro con temperatura baja.

MCS exhibits the first low temperature jet model.

1974

MCS inicia el estudio diseño de las líneas al ancho.

MCS begins the design and development of the open width lines.

1979 ITMA - Hannover

MCS expone: Jet HT, Overflow MO/80 LT, MRS65.

MCS exhibits: Jet HT, Overflow MO/80 LT, MRS65.

1980

Inicio de las actividades de **Europea**, tintorería y resinado del grupo.

Europea activity begins, group dyeing and resining company.

1983 ITMA - Milan

MCS expone: mercerización tubular MT26, soft flow SF82 BT/HT, flow/jet OF83, Comby Jigger

HT, línea de lavado en cuerda WR.

MCS exhibits: tubular Mercerizer MT26, Soft Flow SF82 LT/HT, Flow/jet OF83, Comby Jigger HT, rope washing machine model WR.

1987 ITMA - París

MCS expone Pandora.

MCS exhibits Pandora.

1991 ITMA - Hannover

MCS expone: Tornado Tumbler, Maxi & Mid Jiggers, Lavaprint.

MCS exhibits: Tornado Tumbler, Maxi & Mid Jiggers, Lavaprint.

1995 ITMA - Milan

MCS expone: Soft Flow, Long Horn, fabric wet sueding machine Pumex.

MCS exhibits: Soft Flow, Long Horn, fabric wet sueding machine Pumex.

1999 ITMA - París

MCS expone: Multiflow, Soft Flow Evolution SF100, Comby electronic Jigger.

MCS exhibits: Multiflow, Soft Flow Evolution SF100, Comby electronic Jigger.

**ESTA INCLUYE:**

- **TERMOELETTRONICA** que produce dispositivos para automoción industrial (dosificaciones automáticas) y sistemas de control.
 - **EUROPIZZI**, tintorería, estampería, acabados y productora de auxiliares químicos para industria textil y otras.
- La producción diaria puede llegar a las 30 toneladas de tejido de punto y los 50.000 m de tejido plano.

El catálogo MCS-Termoelettronica incluye:

- Máquinas de tintura en cuerda a alta y baja temperatura
- Máquinas de tintura en abierto (Jigger y autoclaves) a alta y baja temperatura
- Sistemas de control de proceso
- Líneas de preparación y lavado en cuerda
- Líneas en abierto para mercerización, blanqueo y lavado para tejidos de punto y ortogonales
- Dispositivos para dosificación de los auxiliares químicos
- Dispositivos para dosificación polvos para tintorerías-estamperías
- Dispositivos para dosificación de la sal
- Sistemas SW de automoción

MCS GROUP INCLUDES:

- Termoelettronica manufacturer of industrial automation systems (automatic dosing) and control systems.
- Europizzi, dye-house, printing-house, finishing and producer of chemical auxiliaries for the textile industry and other application fields. Daily production at Europizzi is 30 tons of knits and 50.000 metres of woven fabrics.

The catalogue of MCS-Termoelettronica machines includes:

- Rope dyeing machines at high and atmospheric temperature
- Open-width dyeing machines (Jiggers and beam dyers) at high and atmospheric temperature
- Systems for process control
- Preparation and washing ranges in rope form
- Open-width ranges for mercerising, bleaching and washing of knitted and woven fabrics
- Dosing systems for chemical auxiliaries
- Dosing systems of powders for dye-house and printing-house
- Dosing systems for salt
- SW systems for automation

2000

MCS adquiere el 100% de la propiedad de **Termoelettronica**. MCS acquires 100% of **Termoelettronica** ownership.

2003 ITMA - Birmingham

MCS expone: Multiflow Superior, Ecoturbo Beam Dyeing Machine.
MCS exhibits: Multiflow Superior, Ecoturbo Beam Dyeing Machine.

2005 IKME - Milan

Prototipo de la empresa Universal Dyeing y de la VDA.
Prototypes of Universal Dyeng and of the VDA.

2007 ITMA - Munich

MCS expone: Universal Dyeing, First Vento, Tumbler Mistral, sistemas de control de proceso Coltex y VDA.
MCS exhibits: Universal Dyeing, First Vento, Tumbler Mistral, process control systems Coltex and VDA.

2008

Rediseño de todos los modelos de los Jigger de

temperatura alta y baja.

Redesigning of all high and low temperature Jigger models.

2009

Lanzamiento y comercialización máquina de tintura en cuerda horizontal Itálica.
Presentation and sale of orizontal rope dyeing machine model Italica.

2011 ITMA - Barcellona

MCS expone: Dynamica, Star Wash, Comby Jigger, Supervisor Texmanager.
MCS presenta: Dynamica, Star Wash, Comby Jigger, Supervisor Texmanager.

2013

MCS celebra los 50 años de actividad con el arranque de la mas grande linea en abierto de descrude, blanqueo, lavado, jamas construida i con la venta de la nueva maquina de tintura Smartflow. **MCS celebrate their 50th anniversary by starting the biggest open-width preparation line in their history (scouring-bleaching-washing) and by introducing the new HT round dyeing machine, Smartflow.**

2014 ITMA - Shanghai

MCS expone la evolución de la gama de lavado Starwash, ideal para el restregado y después del lavado de impresión.

MCS exhibits evolution of Starwash washing range, ideal for scouring and after print washing.

2015 ITMA - Milan

MCS expone: Multiwash, Dynamica Sprint, Starwash FS. Termoelettronica presenta: Termopowder XP, Texmanager XP, Termochem XP.
MCS exhibits: Multiwash, Dynamica Sprint, Starwash FS.
Termoelettronica exhibits: Termopowder XP, Texmanager XP, Termochem XP.

2019

MCS expone: Lavaprint Next (Starwash + Multiwash), Dynamica Sprint, Mini Jigger 98
MCS presenta: C4 Comby Jigger 143; Softflow 18-HT.
Termoelettronica espone: Termochem XP, Texmanager.

MCS exhibits: Lavaprint Next (Starwash + Multiwash), Dynamica Sprint, Mini Jigger 98
MCS introduces: C4 Comby Jigger 143; Softflow 18-HT.
Termoelettronica exhibits: Termochem XP, Texmanager.

SOFT FLOW 99

HORIZONTAL LT DYEING MACHINE

La SOFT FLOW SF99 es el modo ideal de teñir tejidos y calcetería con estructura sensible y delicada. Esta máquina resulta ser la confirmación definitiva de la indiscutible versatilidad del depósito horizontal. Esta característica de base unida al sistema de arrastre del tejido permiten el empleo del SOFT FLOW SF99 con artículos elásticos como jersey de algodón/licra o viscosa acetato, lana/viscosa, lana/seda, viscosa/seda.

The SOFT FLOW SF99 is the best way to dye very delicate knitted and woven fabrics. This machine definitely confirms the real versatility of the horizontal fabric deposit. This characteristic combined with the dragging system allows the use of the SOFT FLOW SF 99 with elastic articles such as jersey, cotton/lycra or viscose, acetate, wool/viscose, wool/silk, viscose/silk.

The versatility of the machine is given by its use for both knitted and woven fabrics.

AVAILABLE IN STANDARD MODEL

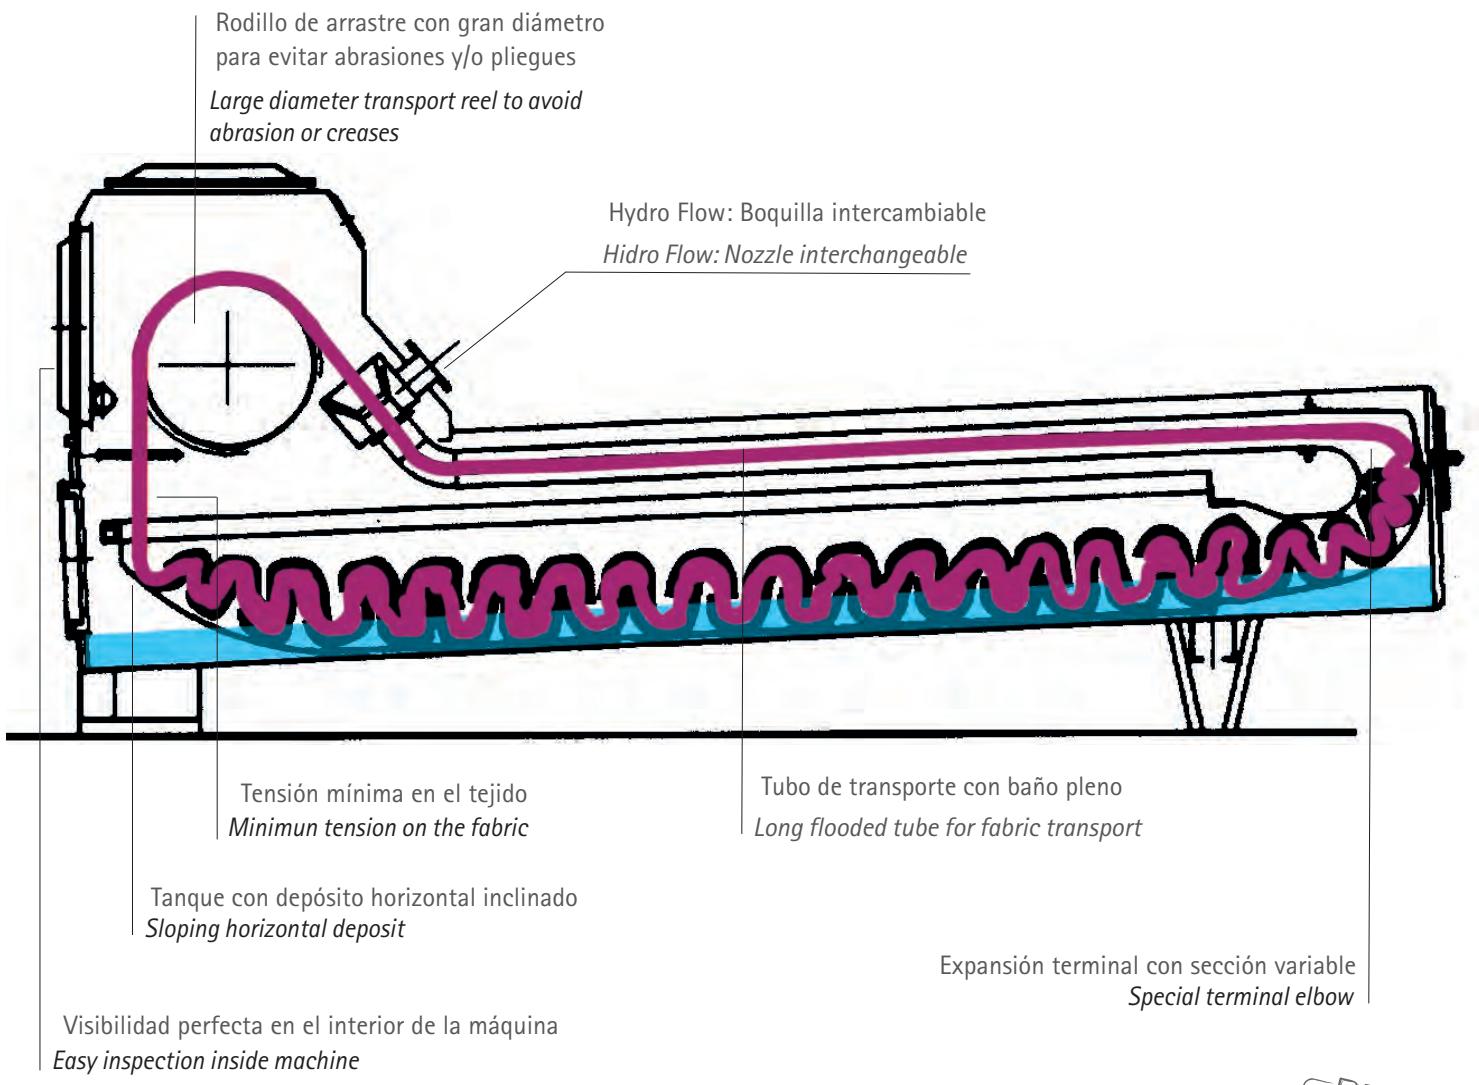

SPECIAL VERSIONS FOR SILK OR WOOL

TECNICAL DATA

- Método de transporte tradicional, confirmado y evolucionado por la experiencia con atención a la apremiante temática energética
- El rodillo de arrastre motorizado con gran diámetro para evitar problemas de abrasión y pliegues
- Tubo largo de transporte con tejido a pleno baño
- Expansión terminal del tubo de transporte en curva de sección adecuada para "ralentizar" el tejido en el depósito
- Distancia reducida entre rodillo de arrastre y depósito del tejido
- Automatización simple y funcional
- Temperatura de empleo: 98° C - 108° C
- Relación baño mínima: 1/6
- Modelos estándar: de 1 cuerda a 12
- Filtros de grandes dimensiones con cestas intercambiables
- Intercambiador de calor con alta eficiencia
- Cuadro eléctrico con microprocesador con pantalla táctil PCX-15
- Posibilidad de acabado con chorreado de arena o floreado

- Traditional fabric transport system, but with adequate solutions for energy saving
- The motorized rell with a large diameter to avoid problems of abrasion and folds
- Fully flooded long transport tube
- Larger transport tube end into a transmission elbow with adequate shape for an easy deposit of the fabric into the trough
- Reduced distance between dragging roller and fabric deposit
- Easy and functional automation
- Working temperature: 98°C - 108°C
- Minimum liquor ratio: 1/6
- Standard machines from 1 to 12 ropes
- External filter with modular baskets
- High efficiency heat exchanger
- Electrical panel with microprocessor PCX-15 touch screen
- Machine finishing: either sand-blasted or spaghetti

REAL

STANDARD EQUIPMENT

Two side-tanks for products, each one complete with its own mixer, pneumatic probe, heating coil, liquor recycling to make product dissolving and mixing much easier.

Thanks to these equipments down times and waiting times are much reduced, also in case of automatic dispensing systems.

Depósito doble para la adición de productos con mezclador, sonda neumática, serpentina de calentamiento y baño de recirculación máquina para facilitar las funciones de mezcla y disolución de productos.

Gracias a dicho sistema se reducen los tiempos muertos y los tiempos de espera incluso en presencia de sistemas automáticos de distribución.

STANDARD AUTOMATION

PCx: PC industrial desarrollado en ambiente Windows para implementar de manera avanzada todas las funciones diagnósticas, de monitorización y de automatización de las máquinas de tintura.

Gracias al monitor con pantalla táctil, diseñado expresamente para el uso industrial, se puede acceder de manera fácil e inmediata a cualquier función.

Si se solicita, es posible el empleo de cualquier micro disponible en el mercado.

PCx: industrial PC developed in Windows room to improve all diagnostic functions, monitoring and automation of dyeing machines.

With Touch-Screen, purposely designed for industrial use, the access to functions is easy and immediate.

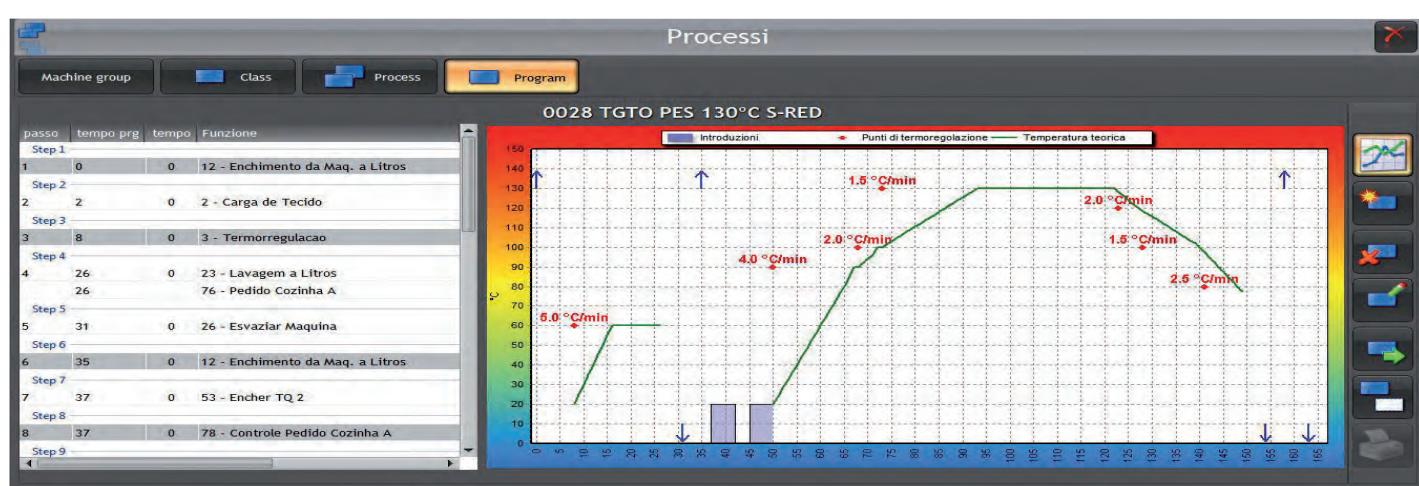

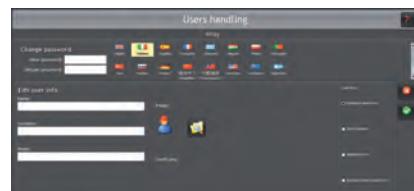

Upon Customer's request it is always possible to install different brands of controllers.
