SOFT FLOW 99

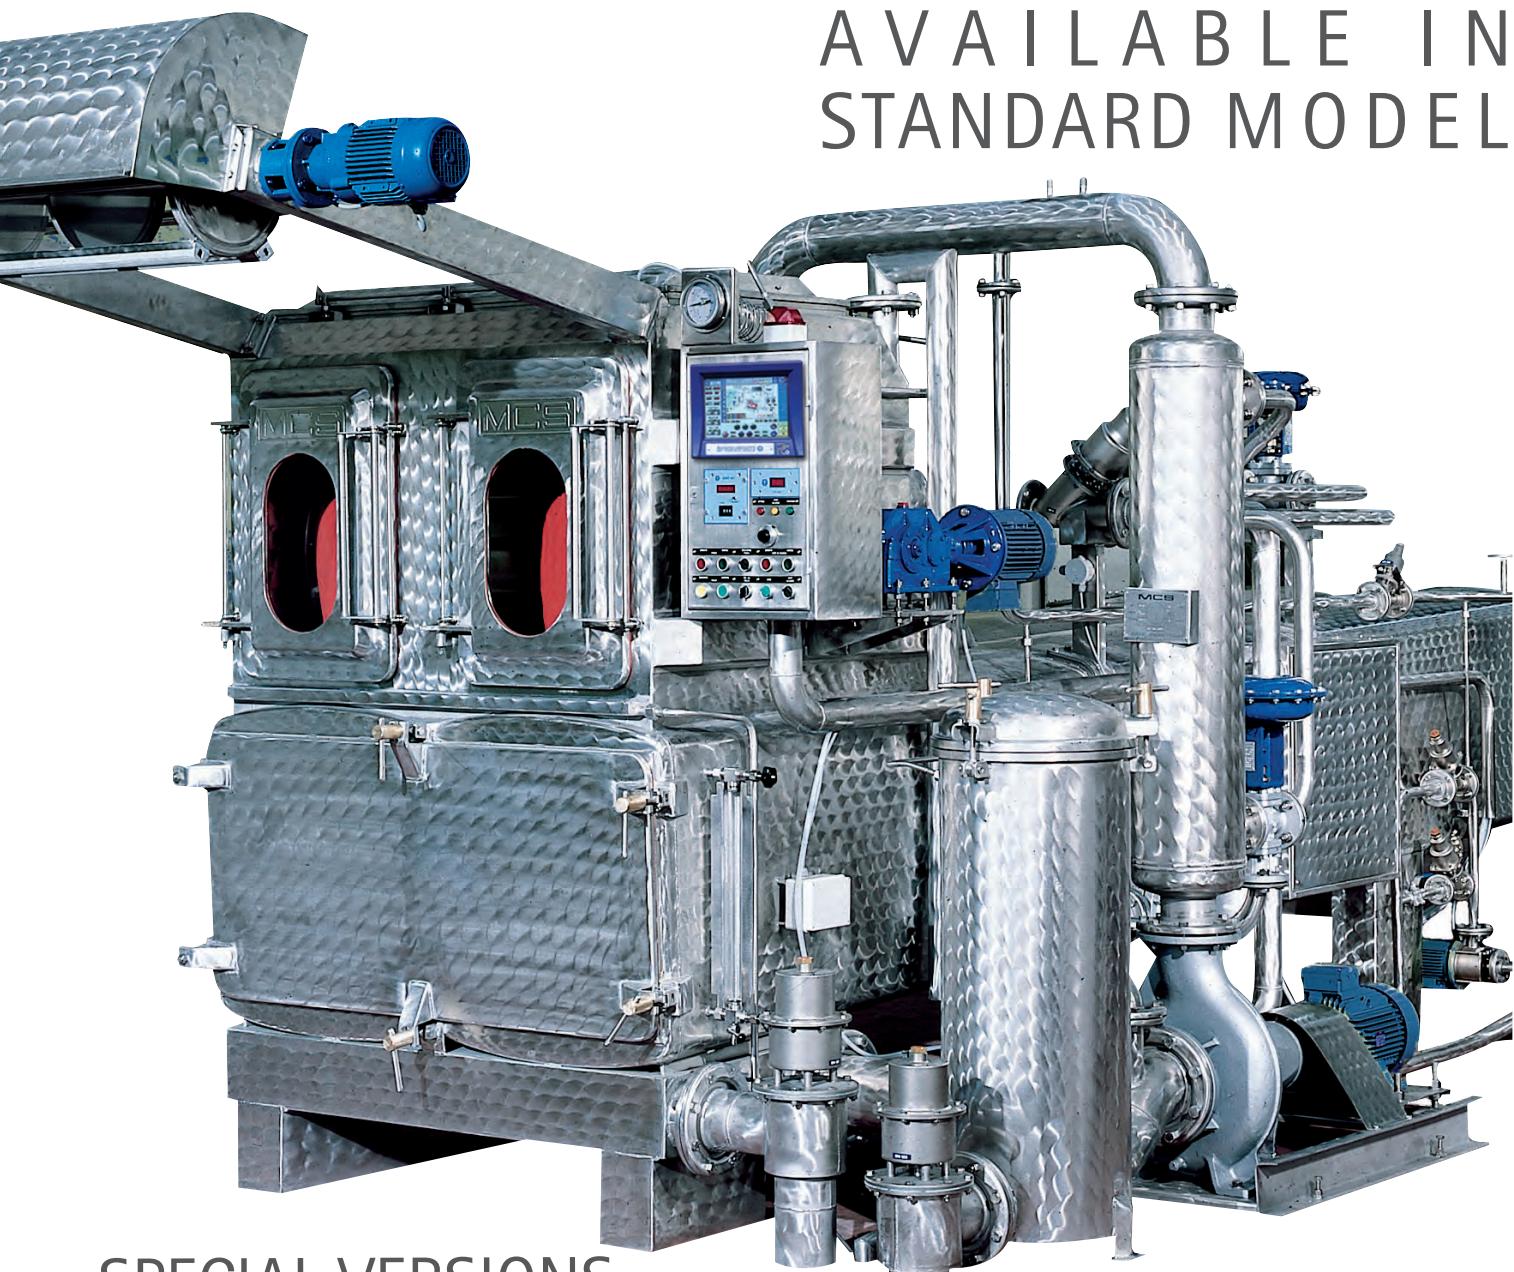

HORIZONTAL LT DYEING MACHINE

La SOFT FLOW SF99 è il modo ideale di tingere tessuto e maglieria dalla struttura sensibile e delicata. Questa macchina risulta la definitiva conferma alla indiscussa versatilità del deposito orizzontale. Questa caratteristica di base unita al sistema di traino del tessuto permettono l'impiego del SOFT FLOW SF99 con articoli elastici come jersey cotone/licra oppure viscosa acetato, lana/viscosa, lana/seta, viscosa/seta.

The SOFT FLOW SF99 is the best way to dye very delicate knitted and woven fabrics. This machine definitively confirms the real versatility of the horizontal fabric deposit. This characteristic combined with the dragging system allows the use of the SOFT FLOW SF 99 with elastic articles such as jersey, cotton/lycra or viscose, acetate, wool/viscose, wool/silk, viscose/silk.

The versatility of the machine is given by its use for both knitted and woven fabrics.
